

Extract from the General Terms and Conditions for the management and collection – Tariffs Professional Theatre

SSA selects the option that results in the highest amount payable to the author from among the following alternatives:

- **12% of receipts**
- **12 % of the assignment price of the performance**
- **guaranteed minimum per performance depending on the maximum capacity of the venue: CHF 1.20 per available seat** (e.g. 60 seat capacity → minimum lump sum of CHF 72.00 per performance).

The minimum amount of collection will be CHF 60.

In any case, the author may set higher conditions.

Special tariffs

School performances

The conditions for professional exploitations apply with the particularities that the assignment price only comes into consideration in the total absence of receipts and that the guaranteed minimum is calculated solely on the basis of seats actually occupied. The amount of the subsidy or specific support received by the user and granted per ticket or per performance is considered to be receipts.

For performances intended for primary and secondary schools only, if the assignment (or engagement) contract is signed by a school authority or a municipality and the performance takes place on school premises or in a multi-purpose hall occupied by the school authority for this purpose, the calculation will be based on a lump sum: CHF 80 per performance for the main work and CHF 30 per performance for an additional work; the author may, however, set higher conditions.

Additional works

This refers to additional works which are added to an existing work, e.g. a play, in a specific production. In such cases, a collection is required in addition to the rate for the main work (usually the text). The calculation is based on the duration of the additional work.

The basis for calculating the rate is 0.12% or CHF 0.012 per minute.

Example for 20 minutes: $0.12\% \times 20 \text{ min.} = 2.4\%$

- 2.4% of receipts
- 2.4% of the assignment price of the performance
- minimum per performance, depending on the maximum capacity of the venue: CHF 0.24 per available seat

The maximum rate is 6% / CHF 0.60 per seat.

For a full list of tariffs, special cases and definitions, please refer to the 'General Terms and Conditions for the management of and collection for stage performances (GTCSP)', published on the website www.ssa.ch.

This extract from the terms and conditions is published for quick reference; only the GTCSP apply.
